

They are back: Workshops enrich NEW HOUSING 2024

In addition to houses, service providers and the expert forum, old acquaintances are returning to NEW HOUSING: the workshops.

Karlsruhe. From 28 to 30 June, Messe Karlsruhe will once again become Europe's largest tiny house festival at NEW HOUSING. More than 70 exhibitors will be presenting, among other things, around 50 houses with a wide variety of tiny house designs.

But tiny house fans and enthusiasts can also look forward to seeing old friends: the workshops are back! "Sharing ideas, working on topics together, practical application - that's what the workshops are all about. I'm looking forward to seeing how they are received by our participants," says Ramona Jonait, Project Manager of NEW HOUSING.

The workshop times

Three workshops will be offered on each of the three festival days Friday, Saturday and Sunday - from 10.30 am to 12.30 pm, from 12.45 pm to 1.45 pm and from 3.30 pm to 5.30 pm.

With **Chris and Caro from the podcast "tinyon"**, interested parties can work together on the path to their own mini house. Under the title "How the dream finally becomes reality - the first step towards living in a tiny house", the two will help you take the right steps to become a safe and reliable part of the tiny house community and avoid mistakes in the process. This workshop is designed for 25 participants.

Anika Falke (Falke Design) will be offering two workshops on Saturday and Sunday - depending on the progress made on the way to your own tiny house. The workshop on Saturday is designed for beginners, the one on Sunday for advanced users. How do take the step towards small living? What do you really have to do without and where does the renunciation begin? How much luxury is still possible? These workshops have been designed for 15 to a maximum of 20 participants.

Fabian Müller from Vilcomo will kick off the workshop on Friday morning. Müller is an expert in networking people with local authorities. He knows what legal steps future mini-house residents need to take in order to obtain land and planning permission, for example. What applications need to be completed? Who do interested parties need to contact? What tips and tricks are there for achieving success for the dream home in the desired municipality? Müller will answer these and other questions. 25 people can take part in this workshop.

You don't necessarily have to live in a tiny house yourself - or at least not immediately. The **Kadolz Homes** workshop will discuss how you can provide for yourself and your future with a tiny house. Roxana Sochan and her sister Natalie will show how people can use their tiny house as an investment - whether for retirement planning or for passive income. A maximum of 30 people can take part in this workshop.

These and other workshops can be booked on the NEW HOUSING website at <https://www.new-housing.de/en/>.
